

# **FRAMEWORK FOR THE ANNUAL REPORT OF THE STATE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT**

## **Preamble**

Section 2108(a) of the Act provides that the State and Territories \*must assess the operation of the State child health plan in each Federal fiscal year, and report to the Secretary, by January 1 following the end of the Federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the State must assess the progress made in reducing the number of uncovered, low-income children. The State is out of compliance with SCHIP statute and regulations if the report is not submitted by January 1. The State is also out of compliance if any section of this report relevant to the State's program is incomplete.

To assist States in complying with the statute, the National Academy for State Health Policy (NASHP), with funding from the David and Lucile Packard Foundation, has coordinated an effort with States and CMS over the years to design and revise this Annual Report Template. Over time, the framework has been updated to reflect program maturation and corrected where difficulties with reporting have been identified.

The framework is designed to:

- Recognize the **diversity** of State approaches to SCHIP and allow States **flexibility** to highlight key accomplishments and progress of their SCHIP programs, **AND**
- Provide **consistency** across States in the structure, content, and format of the report, **AND**
- Build on data **already collected** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance **accessibility** of information to stakeholders on the achievements under Title XXI.

\* - When "State" is referenced throughout this template, "State" is defined as either a state or a territory.

**FRAMEWORK FOR THE ANNUAL REPORT OF  
THE STATE CHILDREN'S HEALTH INSURANCE PLANS  
UNDER TITLE XXI OF THE SOCIAL SECURITY ACT**

**DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.**

State/Territory: HI  
(Name of State/Territory)

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a)).

## SECTION I: SNAPSHOT OF SCHIP PROGRAM AND CHANGES

- 1) To provide a summary at-a-glance of your SCHIP program characteristics, please provide the following information. You are encouraged to complete this table for the different SCHIP programs within your state, e.g., if you have two types of separate child health programs within your state with different eligibility rules. If you would like to make any comments on your responses, please explain in narrative below this table.

## SECTION II: PROGRAM'S PERFORMANCE MEASUREMENT AND PROGRESS

---

This section consists of three subsections that gather information on the core performance measures for the SCHIP program as well as your State's progress toward meeting its general program strategic objectives and performance goals. Section IIA captures data on the core performance measures to the extent data is available. Section IIB captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your State. Section IIC captures progress towards meeting your State's general strategic objectives and performance goals.

### SECTION IIA: REPORTING OF CORE PERFORMANCE MEASURES

CMS is directed to examine national performance measures by the SCHIP Final Rules of January 11, 2001. To address this SCHIP directive, and to address the need for performance measurement in Medicaid, CMS, along with other Federal and State officials, developed a core set of performance measures for Medicaid and SCHIP. The group focused on well-established measures whose results could motivate agencies, providers, and health plans to improve the quality of care delivered to enrollees. After receiving comments from Medicaid and SCHIP officials on an initial list of 19 measures, the group recommended seven core measures, including four core child health measures:

- Well child visits in the first 15 months of life
- Well child visits in the 3rd, 4th, 5th, and 6th years of life
- Use of appropriate medications for children with asthma
- Children's access to primary care practitioners

These measures are based on specifications provided by the Health Plan Employer Data and Information Set (HEDIS®). HEDIS® provides a useful framework for defining and measuring performance. However, use of HEDIS® methodology is not required for reporting on your measures. The HEDIS® methodology can also be modified based on the availability of data in your State.

This section contains templates for reporting performance measurement data for each of the core child health measures. Please report performance measurement data for the three most recent years (to the extent that data are available). In the first and second column, data from the previous two years' annual reports (FFY 2005 and FFY 2006) will be populated with data from previously reported data in SARTS, enter data in these columns only if changes must be made. If you previously reported no data for either of those years, but you now have recent data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2007). Additional instructions for completing each row of the table are provided below.

#### If Data Not Reported, Please Explain Why:

If you cannot provide a specific measure, please check the box that applies to your State for each performance measure as follows:

- Population not covered: Check this box if your program does not cover the population included in the measure.
- Data not available: Check this box if data are not available for a particular measure in your State. Please provide an explanation of why the data are currently not available.
- Small sample size: Check this box if the sample size (i.e., denominator) for a particular measure is less than 30. If the sample size is less than 30, your State is not required to report data on the measure. However, please indicate the exact sample size in the space provided.
- Other: Please specify if there is another reason why your state cannot report the measure.

#### Status of Data Reported:

Please indicate the status of the data you are reporting, as follows:

- Provisional: Check this box if you are reporting data for a measure, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2007.
- Final: Check this box if the data you are reporting are considered final for FFY 2007.

- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported in another annual report. Indicate in which year's annual report you previously reported the data.

#### **Measurement Specification:**

For each performance measure, please indicate the measurement specification (i.e., were the measures calculated using the HEDIS® technical specifications, HEDIS®-like specifications, or some other source with measurement specifications unrelated to HEDIS®). If the measures were calculated using HEDIS® or HEDIS®-like specifications, please indicate which version was used (e.g., HEDIS® 2007). If using HEDIS®-like specifications, please explain how HEDIS® was modified.

#### **Data Source:**

For each performance measure, please indicate the source of data – administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). If another data source was used, please explain the source.

#### **Definition of Population included in the Measure:**

Please indicate the definition of the population included in the denominator for each measure (such as age, continuous enrollment, type of delivery system). Check one box to indicate whether the data are for the SCHIP population only, or include both SCHIP and Medicaid (Title XIX) children combined. Also provide a definition of the numerator (such as the number of visits required for inclusion).

**Note: You do not need to report data for all delivery system types. You may choose to report data for only the delivery system with the most enrollees in your program.**

#### **Year of Data:**

Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

#### **Performance Measurement Data (HEDIS® or Other):**

In this section, please report the numerators, denominators, and rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or HEDIS®-like methodology or a methodology other than HEDIS®. The form fields have been set up to facilitate entering numerators, denominators, and rates for each measure. If the form fields do not give you enough space to fully report on your measure, please use the “additional notes” section.

**Note: SARTS will calculate the rate if you enter the numerator and denominator. Otherwise, if you only have the rate, enter it in the rate box.**

If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure (or component). The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator. Alternatively, if numerators and denominators are not available, you may calculate an “unweighted average” by taking the mean rate across health plans.

#### **Explanation of Progress:**

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2008, 2009, and 2010. Based on your recent performance on the measure (from FFY 2005 through 2007), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On

the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years.

In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

**Other Comments on Measure:**

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

**NOTE: Please do not reference attachments in this table. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.**

## SECTION IIB: ENROLLMENT AND UNINSURED DATA

- The information in the table below is the Unduplicated Number of Children Ever Enrolled in SCHIP in your State for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 in your State's 4<sup>th</sup> quarter data report (submitted in October) in the SCHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by SARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response.

Program	FFY 2006	FFY 2007	Percent change FFY 2006-2007
SCHIP Medicaid Expansion Program	22031	23958	8.75
Separate Child Health Program	0	0	

A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent.

- The table below shows trends in the three-year averages for the number and rate of uninsured children in your State based on the Current Population Survey (CPS), along with the percent change between 1996-1998 and 2004-2006. Significant changes are denoted with an asterisk (\*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3. SARTS will fill in this information automatically, but in the meantime, please refer to the CPS data attachment that was sent with the FFY 2007 Annual Report Template.

	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19

1998 - 2000	17	15.1	5.4	1.5
2000 - 2002	14	3.2	4.3	1.0
2002 - 2004	10	2.6	3.1	.8
2003 - 2005	8	2.4	2.4	.7
2004 - 2006	7	2.0	2.2	.7
Percent change	-50.0%	NA	-51.1%	NA

1996-1998 vs. 2004-2006				
----------------------------	--	--	--	--

- A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children.

Internal reports have the SCHIP enrollments at approximately 8,200 in FFY2002. The increase in the SCHIP enrollments of 200% since FFY2002 is a large factor contributing to the decrease in the uninsured children figure.

- B. Please note any comments here concerning CPS data limitations that may affect the reliability or precision of these estimates.

None.

3. Please indicate by checking the box below whether your State has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

☐ Yes (please report your data in the table below)

☒ No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

- A. Please explain why your State chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.
- B. What is your State's assessment of the reliability of the estimate? What are the limitations of the data or estimation methodology? (Provide a numerical range or confidence intervals if available.)
- C. What are the limitations of the data or estimation methodology?
- D. How does your State use this alternate data source in SCHIP program planning?

4. How many children do you estimate have been enrolled in Medicaid as a result of SCHIP outreach activities and enrollment simplification? Describe the data source and method used to derive this information

## SECTION IIC: STATE STRATEGIC OBJECTIVES AND PERFORMANCE GOALS

This subsection gathers information on your State's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your SCHIP State Plan. (If Section 9 of your SCHIP State Plan has changed, please indicate when it changed, and how the goals and objectives in Section 9 of your State Plan and the goals reported in this section of the annual report are different. Also, the state plan should be amended to reconcile these differences). The format of this section provides your State with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- SCHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, report data from the previous two years' annual reports (FFY 2005 and FFY 2006) will be populated with data from previously reported data in SARTS, enter data in these columns only if changes must be made. If you previously reported no data for either of those years, but you now have recent data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2007).

Note that the term *performance measure* is used differently in Section IIA versus IIC. In Section IIA, the term refers to the four core child health measures. In this section, the term is used more broadly, to refer to any data your State provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are State-specific, and should be listed in the appropriate subsections within the space provided for each objective.

**NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.**

**In addition, please do not report the same data that were reported in Sections IIA or IIB. The intent of this section is to capture goals and measures that your State did not report elsewhere in Section II.**

Additional instructions for completing each row of the table are provided below.

### Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** "Increase (direction) by 5 percent (target) the number of SCHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13<sup>th</sup> birthday."

### Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

### **Status of Data Reported:**

Please indicate the status of the data you are reporting for each goal, as follows:

- Provisional: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2007.
- Final: Check this box if the data you are reporting are considered final for FFY 2007.
- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported for the goal in another annual report. Indicate in which year's annual report you previously reported the data.

### **Measurement Specification:**

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which States may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications, HEDIS®-like specifications, or some other method unrelated to HEDIS®). If the measures were calculated using HEDIS® or HEDIS®-like specifications, please indicate which version was used (e.g., HEDIS® 2007). If using HEDIS®-like specifications, please explain how HEDIS® was modified.

### **Data Source:**

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and SCHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

### **Definition of Population Included in Measure:**

Please indicate the definition of the population included in the denominator for each measure (such as age, continuous enrollment, type of delivery system). Also provide a definition of the numerator (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

For measures related to increasing access to care and use of preventative care, please also check one box to indicate whether the data are for the SCHIP population only, or include both SCHIP and Medicaid (Title XIX) children combined.

### **Year of Data:**

Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which enrollment or utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

**Performance Measurement Data:**

Describe what is being measured: Please provide a brief explanation of the information you intend to capture through the performance measure.

Numerator, Denominator, and Rate: Please report the numerators, denominators, and rates for each measure (or component). For the objectives related to increasing access to care and use of preventative care, the template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or HEDIS®-like methodology or a methodology other than HEDIS®. The form fields have been set up to facilitate entering numerators, denominators, and rates for each measure. If the form fields do not give you enough space to fully report on your measure, please use the “additional notes” section.

If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure (or component). The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator. Alternatively, if numerators and denominators are not available, you may calculate an “unweighted average” by taking the mean rate across health plans.

**Explanation of Progress:**

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2008, 2009, and 2010. Based on your recent performance on the measure (from FFY 2005 through 2007), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

**Other Comments on Measure:**

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

<b>Other Comments on Measure:</b>	<b>Other Comments on Measure:</b>	<b>Other Comments on Measure:</b>

1. What other strategies does your State use to measure and report on access to, quality, or outcomes of care received by your SCHIP population? What have you found?

We measure access to, or the quality or outcomes of care received by our Medicaid population via the HEDIS and HCFA-416 reports. We also review the managed care plans' complaints, grievances and appeals per quarter, address quality of care complaints from physicians, clients, and advocates. Under BBA, the State has contracted with an External Quality Review Organization (EQRO) to ensure that each health plan meets BBA requirements and has validated performance measures and validated program improvement projects (PIPs).

NOTE: Hawaii's HEDIS report moved from a fiscal year to a calendar year. Therefore data is not yet available for 2007.

2. What strategies does your SCHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your SCHIP population? When will data be available?

We plan to continue to utilize all of the above.

3. Have you conducted any focused quality studies on your SCHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found?

Each managed care plan is required to conduct focus studies. The State's EQRO and the Med-QUEST Division have worked with the QUEST health plans to standardize PIP focused reviews to meet BBA requirements.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your SCHIP program's performance. Please list attachments here and summarize findings or list main findings.

As stated earlier, Hawaii's HEDIS report moved from a fiscal year to a calendar year. Therefore data is not yet available for 2007.

### SECTION III: ASSESSMENT OF STATE PLAN AND PROGRAM OPERATION

---

Please reference and summarize attachments that are relevant to specific questions

#### OUTREACH

1. How have you redirected/changed your outreach strategies during the reporting period? **[7500]**

As reported in previous years' annual reports, the Department of Human Services (DHS) has an outreach contract with the Hawaii Primary Care Association of which the Hawaii Covering Kids is under to enroll potentially eligible Medicaid children, their parents, pregnant women, and potentially eligible S-CHIP children.

Major outreach initiatives continue to be through natural points of contact such as WIC, Healthy Start, physicians, community health centers, hospitals, Head Start, schools, and public health nurses.

Outstationed eligibility workers continue to assist families and pregnant women at various community health centers and hospitals during nontraditional work hours and in geographic locations convenient to the customers.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? **Would you consider this a best practice? [7500]**

We linked with natural points of contact to assure that wherever families go they learn about the QUEST and Medicaid Fee-for-Service programs. These include schools, community health centers, public health nursing, social workers, community organizations, and community events.

We measured our effectiveness through calls to the Aloha United Way 211 hotline service.

3. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)? Have these efforts been successful, and how have you measured effectiveness? **[7500]**

"Gap group" children. This group includes children whose family's income is 251%-300% FPL, eligible for S-CHIP, and their parent or guardian cannot afford premium payments. The gap group also includes newborns born to uninsured pregnant woman (approximately 450 newborns annually).

Success is measured by the number of children enrolled in the QUEST and Medicaid Fee-For-Service programs.

4. What percentage of children below 200 percent of the Federal poverty level (FPL) who are eligible for Medicaid or SCHIP have been enrolled in those programs? (Identify the data source used). **[7500]**

Data is not available.

## **SUBSTITUTION OF COVERAGE (CROWD-OUT)**

***States with a separate child health program up to and including 200% of FPL must complete question 1.***

1. Is your state's eligibility level up to and including 200 percent of the FPL?

☐ Yes  
☐ No  
☒ N/A

If yes, if you have substitution prevention policies in place, please identify those strategies. **[7500]**

***States with a separate child health program above 200 through 250% of FPL must complete question 2. All other states with trigger mechanisms should also answer this question.***

2. Is your state's eligibility level above 200 and up to and including 250 percent of the FPL?

☐ Yes  
☐ No  
☒ N/A

If yes, please identify the trigger mechanisms or point at which your substitution prevention policy is instituted. **[7500]**

***States with separate child health programs over 250% of FPL must complete question 3. All other states with substitution prevention provisions should also answer this question.***

3. Does your state cover children above 250 percent of the FPL or does it employ substitution prevention provisions?

☐ Yes  
☐ No  
☒ N/A

If yes, identify your substitution prevention provisions (waiting periods, etc.). **[7500]**

### ***All States must complete the following 3 questions***

4. Describe how substitution of coverage is monitored and measured and how the State evaluates the effectiveness of its policies. **[7500]**

We attempt to monitor comments from the private health insurance industry and from others in the community, if any, to determine whether substitution of private coverage is occurring.

Since it's implementation, we have not received comments from the private insurance industry or others in the community that substitution of private coverage is occurring.

5. At the time of application, what percent of applicants are found to have insurance? **[7500]**

Data is not available.

6. Describe the incidence of substitution. What percent of applicants drop group health plan coverage to enroll in SCHIP? **[7500]**

Data is not available.

## **COORDINATION BETWEEN SCHIP AND MEDICAID**

*(This subsection should be completed by States with a Separate Child Health Program)*

1. Do you have the same redetermination procedures to renew eligibility for Medicaid and SCHIP (e.g., the same verification and interview requirements)? Please explain. **[7500]**

Hawaii employs a passive renewal process for Medicaid and S-CHIP families with children. A system-generated pre-populated renewal form is sent to these families; the form need not be returned if the information previously reported has not changed.

If previously reported information has changed, the new information needs to be reported on the form, and the form needs to be signed and returned.

Recipients are reminded to report all future changes within ten days of when they learn of the change.

2. Please explain the process that occurs when a child's eligibility status changes from Medicaid to SCHIP and from SCHIP to Medicaid. Have you identified any challenges? If so, please explain. **[7500]**

The State's Medicaid agency administers the Medicaid and S-CHIP programs and uses the same eligibility determination system. This eligibility determination system does not allow an individual to participate in S-CHIP when countable family income is less than or equal to the age-specific Medicaid income limits (i.e., 100%, 133%, and 185% FPLs). Similarly, when countable family income exceeds the age-specific Medicaid income limits, the system does not allow authorization to occur.

3. Are the same delivery systems (including provider networks) used in Medicaid and SCHIP? Please explain. **[7500]**

Currently, Hawaii employs two service delivery systems: managed care and fee-for-service. Children who are NOT blind or disabled receive services through the managed care delivery system. Children who are blind or disabled receive their services through the traditional fee-for-service delivery system.

4. For states that do not use a joint application, please describe the screen and enroll process. **[7500]**.

Hawaii uses a joint application.

## **ELIGIBILITY REDETERMINATION AND RETENTION**

1. What measures does your State employ to retain eligible children in SCHIP? Please check all that apply and provide descriptions as requested.

- ☐ Conducts follow-up with clients through caseworkers/outreach workers
- ☐ Sends renewal reminder notices to all families
- How many notices are sent to the family prior to disenrolling the child from the program? **[500]**
  - At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the State?) **[500]**
- ☐ Sends targeted mailings to selected populations
- Please specify population(s) (e.g., lower income eligibility groups) **[500]**
- ☐ Holds information campaigns
- ☒ Provides a simplified reenrollment process,
- Please describe efforts (e.g., reducing the length of the application, creating combined Medicaid/SCHIP application) **[500]***
- Hawaii employs a passive renewal process, a pre-populated renewal form is sent to families with children who does not need to return the form if the information previously reported has not changed.
- ☐ Conducts surveys or focus groups with disenrollees to learn more about reasons for disenrollment *please describe: **[500]***
- ☐ Other, *please explain: **[500]***

2. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. **[7500]**

Simplified reenrollment process, specifically implementation of "passive renewal," appears to be the most effective in retaining eligible children. S-CHIP's 8.75% increase enrollment from the previous year is attributed to the effectiveness of the passive renewal process.

3. What percentage of children in the program are retained in the program at redetermination? What percentage of children in the program are disenrolled at redetermination? **[500]**

Approximately 94% of children in the program are retained and approximately 6% are disenrolled at redetermination.

4. Does your State generate monthly reports or conduct assessments that track the outcomes of individuals who disenroll, or do not reenroll, in SCHIP (e.g., how many obtain other public or private

coverage, how many remain uninsured, how many age-out, how many move to a new geographic area)

- ☐ Yes  
☒ No  
☐ N/A

When was the monthly report or assessment last conducted? **[7500]**

If you responded yes to the question above, please provide a summary of the most recent findings (in the table below) from these reports and/or assessments. **[7500]**.

**Findings from Report/Assessment on Individuals Who Disenroll, or Do Not Reenroll in SCHIP**

Total Number of Dis-enrollees	Obtain other public or private coverage		Remain uninsured		Age-out		Move to new geographic area		Other	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent

Please describe the data source (e.g., telephone or mail survey, focus groups) used to derive this information. Include the time period reflected in the data (e.g., calendar year, fiscal year, one month, etc.) **[7500]**.

**COST SHARING**

- Has your State undertaken any assessment of the effects of premiums/enrollment fees on participation in SCHIP? If so, what have you found? **[7500]**

No assessment was conducted.

- Has your State undertaken any assessment of the effects of cost sharing on utilization of health services in SCHIP? If so, what have you found? **[7500]**

No assessment was conducted.

- If your state has increased or decreased cost sharing in the past federal fiscal year, has the state undertaken any assessment of the impact of these changes on application, enrollment, disenrollment, and utilization of health services in SCHIP. If so, what have you found? **[7500]**

No assessment was conducted.

**EMPLOYER SPONSORED INSURANCE PROGRAM (INCLUDING PREMIUM ASSISTANCE PROGRAM(S)) UNDER THE SCHIP STATE PLAN OR A SECTION 1115 TITLE XXI DEMONSTRATION**

- Does your State offer an employer sponsored insurance program (including a premium assistance program) for children and/or adults using Title XXI funds?

- ☐ Yes, please answer questions below.  
☒ No, skip to Program Integrity subsection.

## Children

- ☐ Yes, Check all that apply and complete each question for each authority.
- ☐ Family Coverage Waiver under the State Plan
- ☐ SCHIP Section 1115 Demonstration
- ☐ Medicaid Section 1115 Demonstration

## Adults

- ☐ Yes, Check all that apply and complete each question for each authority.
- ☐ Family Coverage Waiver under the State Plan
- ☐ SCHIP Section 1115 Demonstration
- ☐ Health Insurance Flexibility & Accountability Demonstration
- ☐ Premium Assistance under the Medicaid State Plan (Section 1906 HIPP)
2. Please indicate which adults your State covers with premium assistance. (Check all that apply.)
- ☐ Parents and Caretaker Relatives
- ☐ Childless Adults
- ☐ Pregnant Women
3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, etc.) **[7500]**
4. What benefit package does the ESI program use? **[7500]**
5. Are there any minimum coverage requirements for the benefit package? **[7500]**
6. Does the program provide wrap-around coverage for benefits or cost sharing? **[7500]**
7. Are there any limits on cost sharing for children in your ESI program? Are there any limits on cost sharing for adults in your ESI program? **[7500]**
8. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

9. Identify the estimated amount of substitution, if any, that occurred or was prevented as a result of your employer sponsored insurance program (including premium assistance program). Discuss how was this measured? **[7500]**

10. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

11. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

12. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

13. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

14. Identify the total state expenditures for providing coverage under your ESI program during the reporting period. **(For states offering premium assistance under a family coverage waiver or for states offering employer sponsored insurance or premium assistance under a demonstration.)** **[7500]**

15. Provide the average amount each entity pays towards coverage of the beneficiary under your ESI program:

State: \_\_\_\_\_

Employer: \_\_\_\_\_

Employee: \_\_\_\_\_

16. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

17. Do you have a cost effectiveness test that you apply in determining whether an applicant can receive coverage (e.g., the state's share of a premium assistance payment must be less than or equal to the cost of covering the applicant under SCHIP or Medicaid)? **[7500]**

18. Is there a required period of uninsurance before enrolling in your program? If yes, what is the period of uninsurance? **[500]**

19. Do you have a waiting list for your program? Can you cap enrollment for your program? **[500]**

**PROGRAM INTEGRITY (COMPLETE ONLY WITH REGARD TO SEPARATE SCHIP PROGRAMS

## SECTION IV: PROGRAM FINANCING FOR STATE PLAN

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-Federal funds). (Note: This reporting period =Federal Fiscal Year 2007. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

## SECTION VI: PROGRAM CHALLENGES AND ACCOMPLISHMENTS

---

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted SCHIP. **[7500]**

House Bill 1008, Relating to Children's Health Care, was passed by the 2007 Legislature and signed as Act 236 by the Governor on 06/30/07. Act 236:

- 1) Establishes a temporary three-year Hawaii Infant Care Program;

This program provides health care coverage for newborn children who are less than 31 days old.

- 2) Establishes a temporary three-year Hawaii Children's Health Care Program in which the State pays half the premiums for health care for uninsured children to a mutual benefit society or managed care health plan;

This program is essentially for children under age 19 who are not eligible for Medicaid/S-CHIP due to excess income or citizenship/alienage status.

- 3) Amend Hawaii Revised Statutes §346-59.4, to provide access to medical care free-of-charge for legal immigrant children under age 19 whose family's income does not exceed 300% FPL; and

- 4) Provide access to medical assistance under QUEST-Net free-of-charge for eligible children under age 19 whose family's income is above 250% and does not exceed 300% FPL.

Act 236 sunsets on 06/30/10.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

None.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

S-CHIP enrollment increased 8.75% from the previous year.

4. What changes have you made or are planning to make in your SCHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

The future of S-CHIP, which includes plans for Hawaii's program, is dependent upon whether the Congress and the President reaches a lasting compromise. Hopefully, the compromise allows for the retraction of the August 17, 2007 letter.
